## Evangelical Conference.

### Interesting Discussion on Missionary Work.

### CHRISTIANITY AMONG THE HINDOOS.

### Tribute to American Protestanism by German Delegates.

**"Missionary Work."**

NEW YORK, October 10.—The topic for discussion of all sections of the Evangelical Alliance to-day is the "Missionary Work."

**Association Hall.**

In Association Hall it was announced that only one session would be held to-morrow.

Dr. Prime thanked the reporters of the press for their assistance during the Conference.

Rev. Joseph Angus, D. D., of Regent Park, London, read a paper in relation to missions, in which he stated that with fifty thousand preachers, for ten years, and one hundred and fifty millions sterling, the Gospel might be carried to every man, woman and child on the earth. More than one denomination in America could supply all the missionaries. England alone spends as much money in intoxicating drinks in four years. Ten thousand professing Christians might be named in England who could give all the money. More was done in the last century to give bibles to the world than in the first ten centuries. The prophecy of the conversion of the world was being enforced by the extent of work done and success achieved.

Papers on the territorial division of missionary fields of labor, missionary courtesy and the obligations of science, literature and commerce to the Christian Missions were read.

Association Hall was filled this evening with a very large and enthusiastic audience of Germans to listen to the speeches of delegates from the fatherland. After singing "Luther's Choral," Dr. Schaaf opened the proceedings in a short but elaborate address. He welcomed the opportunity offered by the presence of the delegates from Germany to dispell wrong notions held by the Christian world of Germany in regard to the Protestant Church of America and the social and political institutions of this country. Everything tending to prejudice the German people against this country was sent over the waters of the ocean by interested parties and spread broadcast over the land. But the delegates will return home and give a truthful picture of this country, and will bear witness to the Christian and benevolent character of the great American people.

The speaker declared the fact that many of the most eminent theologians of Germany had not been able to attend the Convention, and that more than one had been suddenly called to his everlasting home while preparing to cross the ocean to labor in the vineyard of the Lord. He (Dr. Schaaf) had an audience with the Emperor of Germany, and His Majesty desired him to carry to the Evangelical Alliance his best wishes, and to assure the delegates of the Protestant world of his deep-felt sympathy with the cause of the Protestant Church.

The speaker then introduced Prof. Dr. Dantor, of Berlin, who spoke upon "The Influence of German Theology upon the Protestant Church of America." The substance of his remarks was that while in Germany the Church was almost a unit, and little was known about sectarianism, Protestantism in America was split up into a multitude of sects. But the true spirit of Christ united all denominations. He was surprised to see and hear the earnestness and faith which moved the different denominations in the great work of spreading the Protestant faith. America will be the great stronghold of Protestantism. The gallant professor complimented the women, because they are so much devoted to the Church, and are so strong in faith.

Rev. Dr. Limmermann was the next speaker. He said that the Protestant Church in Germany is threatened with destructive storms. The mighty hand of the Government will sever the ties of the Church and State, but his visit to this country taught him that the Church can very well battle for itself. Nowhere is the Christian faith so deeply rooted as here. Nowhere are the people so ready to support the Church. Therefore he looked calmly at the coming storm, and believed that the trial of the Church will enkindle faith in the breasts of the Protestants of Germany. It is a common belief in Germany that in America the dollar rules, but he was happy to say to his friends at home that he nowhere found so much true Christianity, so much faith, and so much benevolence as in this land.

Prof Christlieb, of Bonn, delivered the closing discourse. He has seen the philosophy class of an American college of 1,500 students closed with prayer. If a German professor would attempt such a thing his pupils would think him insane. He wished that the Christian spirit so apparent in American colleges could be installed into the hearts of the professors and students of German universities. Then the educated classes of Germany would cease to despise religion.

All the reporters in sight having left the hall, the Professor said he would seize this opportunity to give "fits" to the German press of America and that of Germany, which, he said, served but Mammon. It is without faith, preaches infidelity and other "isms," is immoral, and aims to corrupt pure Christian souls.

**St. Paul's Church.**

The second section of the Alliance met in St. Paul's church. There was an immense audience present. Rev. Mr. Sheshadra spoke on "Christianity among the Hindoos." Mention was made of the Theological Institute in Calcutta, where there are over thirteen hundred students, and other cities where there are large missionary institutions. The speaker believed there was not a person in India but would prefer their friends to embrace Christianity than otherwise. Pardee and Mohammedan notions are being gradually taken from the people. Hindooism is much like the Encyclopedia Brittanica; it takes in the subjects of science. Time would fail him should the speaker tell of the triumphs of the Gospel in India.

The immense audience which had gathered to listen to the speaker were deeply interested and were warm in their reception of the speaker and his words.

Rev. Mr. Woodside made an address on "Women's Work in India," but before he got to this interesting story, his time expired, and he sat down.

Bishop Schweinitz read a paper on missionary work among the heathen, and the usual recess was taken.

**Madison Square Church.**

A large audience assembled in the Madison Square Church this afternoon to listen to addresses upon missionary work by various missionaries in attendance upon the Alliance. Rev Dr. Anderson, of Boston, presided. Addresses were made by Rev. Messrs. Jessup, of Syria; Lansing, of Tyre; Gibson, of China; Talmadge, of Amoy, China; Edkines, of Japan; Bliss, of Constantinople; Labaree, of Persia; Kalopathakes, of Greece; Doolittle, of China; Grant, of South Africa; Smith, of Ceylon; McFarland, of Siam; Carpenter, of British Burmah, and Yorke, of Madras.

The exercises closed by the congregation singing "All hail the power of Jesus' name," the last verse being sung in all the various languages represented by the missionaries, and by the congregation in English.

## NEW YORK.

NEW YORK, October 10, 1873.

**Pooling of Greenbacks Becoming Unpopular.**

There is a very early prospect of putting an end to the pooling arrangement of greenbacks. Many old and prudently managed banks are restive under the arrangement and desire the liberty of managing their own bank notes as well as national bank notes, and to receive and pay them out across their counters. Their receipts cannot be made as free as before the suspension so long as there is a discount on bank checks in Wall street, and they insist on resumption in notes, greenbacks or national bank notes across their own counters. No day is named for the meeting of the Clearing House banks to relax the existing arrangement, but the probability is it will not be later than Saturday or Monday next.

J. D. Vermilye, President of the Merchant's Bank, says he would not be surprised if within two or three days the banks will give up pooling and pay greenbacks over the counters as formerly. He states that the banks have gained half a million greenbacks during the last three days.

**Financial Matters Brightening.**

Mr. Camp, President of the Clearing House Association, stated to-day that financial matters are becoming brighter. The banks are gaining rapidly in greenbacks, and confidence is being speedily restored. The banks, he says, have paid and are paying more currency than ever before, and all demands for legitimate business purposes are being supplied. The loan certificates outstanding amount to about twenty millions, and are being cancelled as rapidly as the general welfare will admit of.

Mr. Camp is of the opinion that a speedy cancellation of loan certificates would be disastrous. He hoped they would all be retired at latest by November 1st, the date originally agreed upon; but if, at the expiration of that time, the associated banks concluded that the public welfare demands a continuance of the loan certificates, the present policy would be adhered to. The banks have as yet taken no action relative to a full resumption.

**Equal Rights Suit.**

A motion was made yesterday before Judge Barrett in the suit of Robert Hamilton against Lester Wallack, to compel the plaintiff to accept defendant's answer, as served. Hamilton, who is colored, with two companions, also colored, bought tickets and attempted to enter Wallack's Theatre, but was denied admission. Wallack was sued by each separately for five thousand dollars damages, they claiming their exclusion was in violation of the civil rights bill. The defendant's answer was served unverified, and was rejected on that ground.

**Comparative Cotton Statement.**

Net receipts at all ports during the week, 51,115 bales; last year, 90,095; total receipts to date, 102,922; last year, 320,557. Exports for the week, 12,323; last year, 36,821; exports to date, 44,452; last year, 91,229. Stock at all United States ports, 136,547; last year, 194,193; stock at interior towns, 32,328; last year, 22,104; stock at Liverpool, 593,000; last year, 627,000; American afloat for Great Britain, 29,000; last year, 21,000.

**The Spanish Consul Charged with Robbery.**

Maria Urbach, who was taken into custody with two Spaniards, charged with robbing the Bank of Commerce in Havana, yesterday, accuses the Spanish Consul of robbing her of money, diamonds and a draft for $17,000. Her affidavit declares that these things were taken from her baggage on board the steamship City of Mexico under false pretenses. The trial is set down for October 16th.

**Impanneling a Jury in Stokes' Case.**

The panel in the Stokes case was exhausted to-day without obtaining a jury. A new panel was ordered, and the Court adjourned till to-morrow.

**Union Trust Company.**

The trustees of the Union Trust Company to-day appointed a committee to consider the question of a speedy resumption.

**Cuban Independence Celebration.**

The fifth anniversary of Cuban independence was celebrated here to-day.

### LATEST OIL NEWS.

**Strikes at Greece City and Troutman Farm—Decrease in the Production.**

The Oil City *Derrick* has a dispatch from Millerstown which states that a new well at Greece City was finished and began pumping on Wednesday. It is owned by Andrews & Nelson, of Butler, and Fisher Brothers, of Oil City. Likely to be small.

Hope well No. 3, on the Troutman farm, reached the sand at noon on Wednesday, and is flowing at the rate probably of 400 barrels. Owned by W. M. Deskey, of Oil City, and others.

Tools are stuck in the Phillips & Vanansdall well, Modoc, which stopped flowing some days ago.

The production of the Modoc district, yesterday, by actual measurement was a little under 5,000 barrels—a decline of over 3,000 barrels in two weeks.

There are eight dry holes at Modoc and two or three on the McClelland farm.

Colonel Eddy's new well, on the Barnhart farm, is through the sand and begins pumping this evening; was a fair strike.

Wyatt No. 2, Barnhart farm, is still doing 800 barrels.

The total production of the Millerstown district is 8,000 barrels a day, according to closest estimates.

The wells around Greece City do not average over seven barrels a day.

Market firm at 80 to 85 cents.

A Parkers telegram to the Titusville *Herald* says Hope Oil Company struck a well near the old Troutman well, Modoc, at 2 o'clock Wednesday. It commenced by spouting at the rate of 1,000 barrels.

### THE VERY LATEST.

ADVICES FROM MODOC, MILLERSTOWN AND KARNS CITY—VARIOUS STRIKES AND SUSPENSIONS—FOURTH SAND THEORY PLAYED OUT.

(Dispatches to the Oil City Derrick.)

MODOC DISTRICT.

MODOC, October 9.—Hope well No. 3, on the Troutman farm, is flowing to day at the rate of about seven hundred barrels.

Grace well No. 2, on the Starr farm, is being drilled through the sand, having stopped flowing three days ago.

The Stahl & Benedict well, on the McClelland farm, has gone down to nothing and will likely be abandoned, torpedoing it having failed to improve it. Two months ago it flowed over three hundred barrels, and was sold for twenty thousand dollars.

Only two wells on the McClelland farm are doing over a hundred barrels each.

The Reno Company has a dry hole on the Starr farm, purchased a few days before reaching the sand for $20,000.

There are now nineteen flowing wells in this district, fourteen pumping, two former spouters with the tools fast, and eight or ten either dry holes or so small as not to pay running expenses.

The next largest to the new strike yesterday is the Thompson, on the Harper tract, which is doing three hundred barrels, or about one-third its original product.

Including the Jenkins well, a mile northeast of the Troutman, and everything in this section as far as the McClelland farm, the daily production of the Modoc district is little over five thousand three hundred barrels.

MILLERSTOWN DISTRICT.

MILLERSTOWN, October 9.—A well owned by H. L. Taylor & Co., on the Troutman farm, was torpedoed and raised from thirty barrels to six hundred barrels.

McKinney Brothers No. 4, on Hemphill farm, was tubed last evening and is pumping one hundred and twenty barrels to-day. Twenty five feet of third sand of good quality were found.

The following is the production of every farm in this district as learned from personal inspection and the most careful inquiry. It is as accurate as can possibly be obtained:

| | | | | |
|---|---|---|---|---|
| Ford farm | 4 | wells, | 270 | Bbls |
| Moore farm | 2 | " | 250 | " |
| Hepler farm | 3 | " | 200 | " |
| Myers farm | 2 | " | 450 | " |

| Frederick farm | 1 | " | 300 | " |
| Grand Total | | | 8,090 | Bbls |

FOURTH SAND PLAYED OUT.

KARNS CITY, October 9.—The excitement relative to the fourth sand has completely subsided, and the best operators believe it nothing more than a depression of the oil bearing rock in the neighborhood of the Scott and McCollum farms. The wells sunk to the supposed sand on these farms prove by actual leveling to be little deeper than those around Modoc. A number of other wells are being drilled further, but in view of the recent developments, fourth sand stock may safely be quoted a long way below par.

The flowing wells in Butler county are falling off in production very rapidly, and many wells have ceased to flow entirely. Several dry wells have also been completed near Modoc. Producers anticipate higher prices for oil, on account of the reduction of the production.

### CONSTITUTIONAL CONVENTION.

**The Suffrage Article Adopted—Article on Revenue, Taxation and Finance Under Consideration—Salaries of Clerks and Officers.**

The Constitutional Convention, on Thursday afternoon, resumed the consideration of the Article on Elections, Suffrage, etc. Amendments by Messrs. Buckalew, D. W. Patterson, Carson and Hanna, changing the day fixed for the spring elections, were severally rejected by large negative votes. Mr. Hanna moved to amend the section prohibiting special registry laws by striking out the words "But no elector shall be deprived of the privilege of voting by reason of his name not being registered."

The effect of this was to make it a compulsory prerequisite to a man's right to vote that his name shall appear upon the registry. Mr. Hanna's amendment was rejected.

Motions by Messrs. Smith, of Berks, and Broomall, to strike out the provisions for the numbering of ballots by the voter and the election officers, and for leaving the writing of the voter's name optional with him, were severely rejected. The provisions, therefore, remain. Mr. Calvin moved to insert the following: "Officers of the Election Board shall be sworn (or affirmed) not to disclose how any elector has voted, unless they shall be required to do so by law." Agreed to, and the provision was inserted accordingly.

Sundry amendments by Mr. Buckalew were adopted, and the article passed finally under the operation of an order for the previous question.

REVENUE, TAXATION AND FINANCE.

The article on Revenue, Taxation and Finance was then placed on final passage, the following additional sections being inserted on motion of Mr. Broomall:

SECTION 12. The moneys held as the necessary reserve shall be limited by law to the amount required for current expenses, and shall be secured and kept as such where the General Assembly shall require. The General Assembly shall provide for the publication once in every month of a statement showing the amount of such moneys, where the same are deposited, and how secured.

SEC 13. The General Assembly shall declare the making of profit out of the public moneys or using the same for political purposes by any officer of the State, or member or officer of the General Assembly, or any candidates for election or appointment, a misdemeanor, and shall provide proper punishment for such offence. A part of such punishment shall be a disqualification to hold office for a period of not less than five years, and a pardon shall not remit or affect that part of the punishment.

FRIDAY'S MORNING SESSION.

M. Hall Stanton, of Philadelphia, sent up a resolution that the Committee on Accounts and Expenditures of the Convention be directed to be drawn on for one-half of the salaries of the clerks and other officers of the Convention yet remaining unpaid. Agreed to.

Mr. D. N. White offered a resolution that on and after Monday next, an evening session shall be held, commencing at seven o'clock. Laid on the table.

Mr. Baer wanted to adjourn *sine die* on the 20th inst., but the Convention was not of his mind.

The Convention resumed the consideration of the article on Taxation and Finance, on third reading.

The thirteenth section, that the Legislature shall not pass any law authorizing the levy of any special tax upon one class of taxable property for the special purpose of benefiting another class, was stricken out.

Mr. Armstrong moved to go into committee on a substitute for the twelfth section, as follows:

The moneys held as necessary reserve shall be limited by law to the amount required for current expenses, and shall be secured and kept as may be provided by law. Monthly statements shall be published, showing the amount of such moneys, where the same are deposited and how secured. Agreed to, and the section was inserted.

### Treasurer Spinner's Report on the Public Finances.

### DEPARTMENT ESTIMATES.

### The Polaris Survivors Examined by the Secretary of the Navy.

### CYCLONE IN FLORIDA.

WASHINGTON, October 10, 1873.

**The Polaris Investigation.**

The investigation by the Secretary of the Navy in regard to the Polaris expedition will be resumed at the Navy Yard to-morrow. The examination was not commenced to-day on account of the Cabinet meeting, which the Secretary had to attend.

The examination of Captain Buddington will probably be concluded by the Secretary of the Navy to morrow. The second witness called will be Dr. Bessel. The only other scientific member of the Polaris crew to be examined is Mr. Ryan, the astronomer, who was transferred to the whaler Intrepid after being picked up by the Ravenscraig, which vessel has not yet arrived in Scotland. Immediately upon her arrival, Bryan, with two seamen, who are with him, will be sent to Washington. Buddington, Bessel, and the other survivors of the Polaris are still quartered on the Tallapoosa.

**Public Finances—Treasurer Spinner's Report.**

The tables to accompany the report of Gen. Spinner have been prepared. The books of the office were closed June 30. After the entry of all moneys received and disbursed on authorized warrants within the fiscal year, the net receipts by warrants, exclusive of repayments and counter warrants, were $548,669,221, and the net expenditures, exclusive of the same items, $524,044,597. The net receipts were distributed as follows: Loans, $214,931,017; customs, $188,089,522; internal revenue, $113,729,314; lands, $2,882,312; miscellaneous, $29,037,055.

The receipts from customs have decreased since the report last year about $28,250,000, and those of internal revenue $16,900,000. The increase from miscellaneous sources was about $4,500,000, and that from lands $300,000. The net expenditures on account of the War Department were $46,000,000, and of the navy $23,000,000, against $36,000,000 for the war last year, and $21,000,000 for the navy. The expenditures of the diplomatic service have decreased about $300,000, and those of the judiciary have increased about the same amount. The expenditures on account of the public debt were $343,555,945 against $529,323,414 last year, a decrease of $185,767,469. The balance in the Treasury on June 30, 1873, was $131,178,137, which differs from the figures of the Secretary and Register $161. The conscience fund during the fiscal year, independent of the Congressional back pay, was $28,551, making the total receipts from December, 1863, $154,695. In addition to this sum credited to this fund, the account of back pay was $193,513. During the year there was received from the United States of Columbia $114,307. The Treasury holds from national banks to secure circulation $390,410,550, and to secure the Government deposits $15,560,000, an increase in the first item of $10,000,000, and a decrease in the latter of $200,000. The business of the Treasury transacted by national banks was $114,000,000.

**The Various Department Estimates.**

The estimates of most of the departments have been sent to the Secretary. Those of the Navy are between two and three millions less than last year. Those of the War Department are about the same for all usual expenditures. The Secretary will send an estimate for arming the most important sea coast defenses, and certain statements in regard to the extent of this work, with the sum necessary to complete it. The estimate of the Interior Department is one million eight hundred thousand more than last year. Of this increase over a million and a quarter is due to the deficiencies and the increased expense of the Indian service, and is owing chiefly to the humane policy of feeding instead of fighting the Indians. Without this increase by the Interior Department, there would have been a much heavier item from the War Department for fighting tribes that through a supply of food and clothing have been kept quiet during the entire season. The Postoffice Department will not require as much by many thousands for the extension of the mail service. Last year the proportion for this branch of the service was nine per cent. The present year it will be only seven per cent.

**Cyclone in Florida.**

Telegrams received at the Signal Office from its observers at Key West and Punta Rosa, Florida, state that a most destructive cyclone swept over those stations on the 6th inst. At Key West the wind reached a velocity of eighty miles per hour, and at Punta Rosa ninety miles. At the latter station the sea rose fourteen feet above the mean tide level, overflowing the land and washing away every moveable thing. The few inhabitants of Punta Rosa are without drinking water.

**A Contrary Opinion.**

The First Controller of the Treasury has given an opinion averse to the other accounting officers, to the effect that the appropriation made for back pay and salaries is not indefinite and permanent, within the meaning of the act regulating unexpended balances; that it is only indefinite in amount, and not in time, and consequently at the end of two years the unexpended balances of salary will revert to the Treasury.

**Resignation Accepted.**

The Attorney General has accepted the resignation of C. E Mably, United States Attorney for the Southern District of Florida.

**Appointment.**

The President to day appointed Wm W. Copeland Surveyor of Customs at Omaha.

**Legal Tenders Outstanding.**

The outstanding legal tenders amount to $359,199,488.

## CINCINNATI.

**The Loan Certificates to be Retired.**

CINCINNATI, October 10.—The Cincinnati Clearing House Association held another meeting this afternoon, and unanimously agreed to retire and cancel the loan certificates at the rate of twenty-five per cent. per week, thus requiring five weeks to cancel the entire issue. They also agreed to continue the settlement of balances during the process of retiring the certificates, by the use of the certificates, and that banks might loan the same to other banks desiring their use on a deposit of satisfactory security. No day for the resumption has yet been fixed. Evans & Co. announce that they will resume currency payment to morrow. Confidence has decidedly improved here to day.

## TOLEDO.

**The Army Reunion—The President to be Present.**

It is now officially stated that he will leave Washington on the 14th, and reach this city on the 15th, remaining over until the 17th. ### A Swiss Bishop Intriguing on the French Border.

**FRANCE.**

**Meeting of Republicans.**

PARIS, October 10.—A meeting of the Republican members of the Assembly was held at the residence of Jules Simon last night. One hundred delegates were present. An electoral scheme was adopted, and a committee, composed of representatives of the three groups of the Left, was appointed to draw up an official declaration in the name of the Republican party. Mm. Thiers and Gambetta support the action of the meeting, which also has the approval of many Conservative Deputies. The Republicans are generally becoming more hopeful.

**Trial of Marshal Bazaine.**

There was a large attendance of spectators at the Bazaine court martial to-day. Several interesting documents were read relating to efforts to communicate with Metz, and the probity of the messengers employed, twenty of whom have been summoned as witnesses. The prosecution attaches great importance to a dispatch delivered, as it alleges, to Bazaine on the 23d of August, announcing MacMahon's movement toward the Meuse, to join hands with the army of Metz. Bazaine is charged with refusing to avail himself of balloon service to communicate with the interior.

The counsel for the defence will move that the justificatory memoir published some time ago by the accused be admitted as evidence.

Baron Stoffel, whose name has been mentioned in connection with the Bazaine investigation, writes to the *Bien Publique* that he is ready to explain his conduct before the proper tribunal.

Among the documents read at the trial of Bazaine to-day was one showing that there were seventeen million cartridges in the arsenal of Metz, of which only one million had been used when the place capitulated, and that when Bazaine said he had no ammunition the fact was that he had no intention of fighting.

The casualties of the Republican army were nineteen killed and forty wounded.

## THE CROPS.

**The Yield of Corn Reduced in the West—Falling off in the Irish Potato Crop—Increase in the Acreage of Wheat Sown this Fall.**

JACKSONVILLE, ILL., October 10.—Reports to October 1st received at the office of the National Crop Reporter indicate a slightly increased loss on corn in Illinois, Missouri and Ohio. The estimated losses in the States mentioned are respectively 14.7, 7.1, and 8.3 per cent. Reports from all quarters agree almost unanimously that but little damage has been effected by the recent frosts, but confirm the reports of serious injury by frost in the latter part of September, at which time most of the corn was yet in the milk. The result will be a great deal of soft corn, much of which cannot even be fed to stock.

Reports from Iowa indicate a loss on corn as compared with last year of only 6 1-10 per cent, which would make the yield for this year 129 bushels.

As far as can be learned the averge of wheat sown this fall is very considerably greater than in 1872, and thus far in most sections the weather has been favorable to growth.

Additional reports from Minnesota, Illinois, Iowa, Wisconsin, Missouri, Kansas and Ohio confirm the estimated falling off of the Irish potato crop in those States, which in 1870 produced over 43,000,000 bushels. The loss at the given rate would aggregate over 16,000,000 bushels.

Scattering reports from the cotton States mention that much damage has been caused to the late cotton crop by the drouth and worms, especially in Arkansas and Tennessee.

## PAY DAY.

**Saturday's Settlements—Squaring Accounts To-day—"Half Cast" at the Mills—The Employes Satisfied.**

Yesterday afternoon, in anticipation of Saturday settlements, one of our reporters took a stroll among our manufacturing establishments to gather fresh information in reference to the situation financially. The tour was highly satisfactory in one particular—in evidencing that whatever the future might bring, our mills were running full time now and had plenty of orders ahead. The general feeling was one of cheerfulness and hope, and there seemed to be a cordial understanding among employers and employes that was of the most satisfactory character.

Among the mills, at which the pay day occurs to-day, were Brown & Co., Park Bro. & Co., Morehead & Co., and others of smaller dimensions. The financial preparations made for settling the accounts embraced payment in full to all outside or unskilled laborers and "half cash" to the others, in accordance with the rule agreed upon at the manufacturers meeting. In some of the mills this had been tried last Saturday and was satisfactory to the employees as it will be to those who will be paid to-day, so far as our representative could learn. At one of the mills, where the hands were paid in full last week, the proprietors were furnished gratifying evidence of the feeling of the men when deputations of them expressed willingness to leave half their money if it was desired. At another place some of the men, after being paid, came back with *all* the money and some little of their savings. In neither case were the propositions accepted, but they were none the less appreciated.

In one place the searcher after facts encountered a "boss puddler" who was interviewed as to how he liked the "half-cash plan."

"Oh, it's all right under the circumstances. We understand it."

"How do the men like it generally?"

"I don't hear any complaints. They all want the works to run, and will help the bosses along if they can."

"How does it effect you?"

"Well, I make about fifteen dollars a day. I'm willing, if it comes to that, to take a little less even than half cash."

"I suppose you could worry along on $45 a week for awhile anyhow," suggestively remarked the interrogator, and the man of muscle pensively smiled but made no reply.

At some of the mills the report was more encouraging than it has been since the flurry commenced. At one of the largest establishments the report was of orders coming in new, and of returning confidence and cash, among some of their best customers who had stopped receiving at first, but had commenced again. So stands the situation at present.

### DARING DESPERADOES.

**Four Thieves Capture a Freight Train—They Seize the Engineer and Fireman.**

On Wednesday morning about two o'clock, a most daring deed was enacted within the precincts of Allegheny. A freight train on the Pittsburgh and Cleveland Railroad was passing very slowly under the bridge over the track at Western avenue, when four men jumped aboard the cab of the engine, and one of the men demanded of the engineer his money, while another pressed him with a revolver. It might be stated here that the Fort Wayne Company paid their men on Tuesday, and the desperadoes thought that the engineer had his month's wages about his person, and that he was employed by the Fort Wayne Road. The fireman came out of the tender, where he had been at work, and armed with a small pick he used in breaking coal, he attacked one of the men and inflicted a severe cut on his head. They then attacked the fireman and a general scuffle ensued. The men jumped off the train and took the fireman and engineer with them. Fortunately the train was running unusually slow. The men were held, and finally the fireman called to the only brakeman on the train to come and stop the engine. He ran forward and the train was stopped at North avenue, when the robbers ran away. The engineer and fireman then boarded their train and proceeded on their way. Their is no clue to the daring robbers.

### AMUSEMENTS.

PITTSBURGH OPERA HOUSE.—Mr. Dominick Murray appeared last evening in the drama of "Willie Rielly," assuming the leading character. The play, as its name implies, treats of Irish character, with the usual accompaniments. A large audience was present, and the piece was well enacted. This afternoon and evening are Mr. Murray's last appearaces, when "Willie Rielly" will be given for the last times.

ACADEMY OF MUSIC.—The Kathi Lanner combination and the famous Peak Family bell ringers give a grand matinee this afternoon at two o'clock. This evening they positively appear for the last time, when a grand and diversified entertainment will be presented. On Monday the Maffit & Bartholomew Pantomime troupe.

LIBRARY HALL.—The great Vokes Family, supported by Mrs. Wilkins and a selected company from the Union Square Theatre, New York, will appear on Monday evening in "Belles of the Kitchen," an entertainment original and unique. Seats can now be had at Hale's music store on Smithfield street.

**Winter Comes on Apace.**

When a few brief weeks shall have come and gone, Winter will be knocking at our doors, claiming to rule as king for mouths to come. It is a wise saying in "time of peace prepare for war," to which we may add in the days of the "sere and yellow leaf" prepare to battle with "chill November's surly blasts"—*i. e.*, stock your coal vaults, fill your larders, and lay in a stock of good things generally, so that you may not be forced every day to go through sleet and snow to the corner for supplies. But there is still one more precaution to be observed, and that is to lay in a comfortable stock of Winter clothing which will secure you from the piercing cold of Winter. "But" you ask, "where shall we go to procure articles suitable to our wants at reasonable rates." Well, as you have asked our opinion, we respectfully reply go to T. Scandrett & Co., 225 Liberty street, where you will find the cheapest and best goods in the city, which will be sold at astonishingly low rates, and made to order, every article guaranteed both as to the quality of goods and as to the style and manner of their make up.

**Fourth U. P. Church, Allegheny.**

Rev. W. T. Campbell, by request, will hold communion services at the Fourth U. P. Church, corner Montgomery avenue and Arch street, Allegheny, Sabbath, October 12th. Preaching at 10½ o'clock, A. M.; also at 7½ o'clock, P. M. He is talented and a fluent speaker. All are invited to attend.

**Nobby Hats** at Graham & McGregor's, No. 46 Federal street, Allegheny, one square below the depots.

**Luther H. Kauffman**, Esq., has removed to 96 Fourth avenue, where he has fitted up a large and convenient banking and brokerage office. He proposes to do a strictly commission business in stocks of all kinds, being represented in the New York stock market, and carrying stocks on margins, and also, to negotiate commercial paper, and do a general business in his line. He has already been established for a considerable time, and his honorable method of transacting business has won him a large circle of patrons. We are gratified at the evidence of prosperity indicated by his removal to more complete and commodious quarters.

**Entire New Stock** of dress and staple styles of hats and caps at Graham & McGregor's, No. 46 Federal street Allegheny, one square below the depots.

GOLD closed in New York yesterday at 108½@108⅝.

THE report of the Commissioners of the State Sinking Fund, published in this issue of the GAZETTE, shows a reduction of our State debt, during the past month, of $209,800. This is an excellent showing, and illustrates the benefits of the Republican method of managing the finances of the State.

GENERAL LA MARMORA, the Italian general who was in command at the battle of Custozza in 1866, and who has, presumably, been intimate with Victor Emanuel since, has issued a work, giving what may be termed the secret history of the diplomacies which led to war with Austria in 1866. It creates great excitement in the diplomatic circles in Germany, Austria and France. It is thought to indicate that Italy has a generous feeling towards France.

IRVING, the self-accused accomplice in the Nathan murder, has been brought on to New York, and proves to know more in regard to that affair than was at first supposed. The murderer, he alleges, is a man named Kelly, now in prison. He details a number of circumstances, all of which go to show that the murder and robbery were perpetrated by a band of professional criminals, and that the plunder was disposed of in New York. His revelations are not remarkably flattering to the skill of the New York detective force.

THE steady decline in the premium on gold, within a few days, serves to induce the belief that the day may not be far distant when specie payments may be naturally resumed. If we take the premium on greenbacks into account, there is now but five per cent. difference between currency and gold. At the rate of decrease in the gold premium which has existed for a few days past, we might, were it continued for a week longer, return to specie payments without a jar. Of course it will not be done, as this decrease in the gold premium will not continue. But once accomplished, there would be an end to a certain kind of fault-finding, although it would not make a particle of difference to the country at large.

WE learn from the Harrisburg *Telegraph* that the Hon. Job Mann died at his residence, in Bedford, on Wednesday afternoon last, after a lingering illness. He was held in high esteem by the people of the State, and especially in that part of it where he was best known. For many years he was prothonotary and clerk of the courts; from 1842 to 1845 he was State Treasurer; and he represented his district in Congress for some three or more terms, during the administration of Polk and Buchanan. He was most exemplary in all his family and social relations; and in the discharge of his many important public duties, none who knew him ever questioned his inflexible integrity. To no one will apply more appropriately that line of the great English poet:

"An honest man's the noblest work of God."

WE exceedingly regret the allusion, by our respected townsman, Mr. Brunot, to the supposed bearing of our National Constitution on religious freedom, at the Evangelical Alliance. It was ill-timed, and not in harmony with the spirit of the occasion. The disclaimers of Rev. Mr. Robinson and Bishop Simpson served, in a measure, to rectify the error made. The former epitomized important facts to show that our Government favors Evangelical religion. He said that our Government was strictly a religious Government. Our law of marriage is a Christian law. Blasphemy is an offense against statute law. The Christian religion is part of the common law of our Government. Religious worship is recognized by it. Our Legislatures and National Senate are opened by prayer. Public feasts and thanksgivings are established by the Government. A Christian oath is administered in civil courts, and by it our civil officers are qualified. Our system of education is purely a Christian one. We have Bibles in our schools, except in a few places, where bigotry has caused their expulsion. These important facts, to which the opposition of the Government to Mormonism may be added, serve to show that it favors Christianity, and is not loose and lax on the subject.

### COMPOUNDING FELONIES.

Judge Bedle, of New Jersey, recently called the attention of a Grand Jury he was charging, to a growing evil, not merely in New Jersey, but here and elsewhere, which he terms "brokerage in crime;" where, by distinct agreements, property is restored and immunity is guaranteed the criminal. It is the old crime of compounding felony. It is chiefly charged on the Detective service, but we are greatly mistaken if it is not discernable in the ordinary police service of this and other cities, as well as among individuals. There is a maudlin dislike among many, to appearing as prosecutor in a criminal case, and so, where partial satisfaction is received for a wrong committed, the case is made up. One reason for this, too, grows out of the fact that criminals can often make peace with officers of the law, who effectually discourage prosecution in such instances. But this is an offence against good order and the security of society which ought to be checked. If a thief be educated to believe that he can relieve himself by negotiation, he will be less careless of his movements and more likely to commit frequent depredations. If he finds between himself and the Courts a victim more anxious for the return of his property, in whole or in part, than for the punishment of a rogue; if he finds this man abetted by a skilled officer, who claims the merit of a compromise as his chief title to employment, the man of nimble fingers will regard his career as elevated to the dignity of a profession which society protects. Might it not be well for the Judges in this city to call attention to the crime of which we speak?

### JUDGE GORDON.

An impudent circular has been scattered over the State, by a "Committee of Members of the Philadelphia Bar," appealing for votes in behalf of Judge Ludlow, as against Judge Gordon. This appeal is a fraud. Not only has there been no such committee constituted, but those whose names are signed to the appeal are Democrats, almost entirely. Not a single prominent Republican appears on the list. The wording of the appeal carries the inference that Judge Ludlow is better qualified for the Supreme Bench than is Judge Gordon. This is utterly untrue. On the contrary, it is generally conceded, among the legal fraternity, that in point of acquirements, ability, experience, knowledge and practice of law, integrity, and all that goes to make up an able and upright Judge, the Republican candidate is superior to his Democratic opponent.

The circulation of this "appeal" is petty and contemptible. We hope no Republican will be caught up by this transparent dodge of the Democratic managers in Philadelphia. Rather, let this appeal make them the more resolute to sustain their own Candidate.

### THOSE BOOKS.

The *Post* evidently purposes to get all the capital possible out of the refusal of a clerk to permit certain gentlemen to examine the books of the Auditor General's office. Of course, this cannot be prevented, except by a prompt opening of those books by the gentlemen interested. The Harrisburg *Telegraph* intimates a doubt of the character of the persons delegated to make the examination. We do not for a moment think that the after-use of the refusal, being made by the *Post*, is either candid or honorable. There is a great difference between an officer delegated and empowered to perform a certain duty, that of examining the accounts and *status* of a national bank, and of a citizen walking into an office to examine books. In one case it is a duty provided for by law; in the other it is a right accorded by law. The cases are not, therefore, similar. Nor do we know the exact circumstances of the refusal; still, we urge that the right to examine the books is clear and undeniable, and the refusal of the clerk, on its face, indefensible. It remains, however, to show that the Auditor General was privy to, and therefore, responsible for, the refusal. If it was a mere freak of the clerk, it merely means that he felt his "little brief authority," and nothing more. If the Auditor General was privy to the refusal, it means more than this. On its face, it merely is the refusal of a clerk without the apparent knowledge of his principal. Still, we believe the proper remedy should be applied, which is, to throw open the books and publicly proclaim the fact.

### LOSS OF CURRENCY.

We have already mentioned the loss to the volume of currency, arising from wear and tear, destruction by fire and the like. J. E. Williams, Esq., President of the Metropolitan Bank, New York, mentions another source of practical loss. He claims that "the South is to the Union what India is to the British empire; it absorbs money. The currency flows in and does not come out. The liberated slaves, perhaps, hoard greenbacks as the Hindoo or the Chinaman hoards silver. Who can say how much of the currency of the United States lies hid now throughout the Southern communities? It would not be an exaggerated estimate to say that forty or fifty millions of greenbacks thus lie hoarded in the negro cabins of the South." That the South absorbs money is true. This process has been going on ever since the close of the war. At the advent of peace the South beyond the border States had no currency. The Confederate money was worthless and the coin had disappeared in the purchase of arms, munitions of war, etc., from the English. The United States military operations, the Freedmen's Bureau, and other influences, immediately disbursed large quantities of greenbacks, and these became at once the currency of the South. As agriculture prospered and trade increased a larger quantity of currency was absorbed, the Southern staples bringing it in abundantly. It is quite certain that no person can tell how little currency we have in circulation; or, to put it differently, how much is hoarded away by one class and another. It is altogether probable that $40,000,000 of currency has been lost or destroyed, and not replaced, since the issue was first made. Admit that $50,000,000 are hoarded at the South, and that at least $10,000,000 more are hoarded in other parts of the country, and we have $100,000,000 lost to trade. The probabilities are altogether in favor of the sum being larger, rather than smaller than we name.

THE track of the N. C. & F. Railroad was laid to the creek bridge, east of Mercer, on Saturday last. The force is now actively employed in ballasting the road. It is the purpose of the company to have the road in good condition and trains running regularly by the first of November.

WESLEY L. BREESE, well known in Columbia lately a conductor on a passenger train of the European & North American Railway, was killed near Bangor, Maine, a few days ago. He was leaning out from the steps of a car, to look at a heated journal, and was struck by a bridge, and instantly killed.

REV. M. L. ESHBAUGH died on the 8th inst. in New Bethlehem, Jefferson county, of consumption. The deceased gave promise of becoming one of the ablest ministers belonging to Erie Conference, and was loved and highly respected by all who knew him. He leaves a wife and three small children.

A SCAFFOLDING on the new Methodist church, in Mifflintown gave way last Thursday, precipitating to the ground John Kennedy, boss bricklayer of building, and two other workmen. Mr. Kennedy was so badly hurt that he was compelled to go home to nurse his injuries. The others received but slight injuries.

TWO Titusville, Pa., lawyers entered into a solemn compact not to drink intoxicating liquors for a year except when out duck shooting, under forfeit of $100. One of them quenches his thirst without losing the ducats by keeping a duck in his back yard to fire at when he is dry, and the other has invested in one also.

THE residence of Mrs. Rebecca H. Gilliland, three and one half miles west of Linesville, Crawford county, was burned on Thursday evening, the 2d inst. Loss on building $2000. Probable loss on furniture, $200 or $300. Mrs. G. had $1,400 insurance on the building, and $600 on the contents, in the Insurance Company of North America.

ABOUT 2 o'clock Thusday morning a wreck occurred at the Gap, by the second Cumberland Valley freight running into the fifth Oil Express, east, which had crossed over on the opposite track in order to allow the Cincinnati express to pass. THE managers of the Antwerp Pipe Line Company have decided to connect the Clarion Oil Regions with the railroads centering at Oil City by extending their main line to that place and thus secure increased facilities of transportation. The project is one which will meet with favor on the part of producers in the lower district and along the line, as "competition is the life of trade."

THE farmers of Columbiana county, as they look over their meadows, from which a heavy crop of hay has been taken this year, and find that many of their grass fields are ruined for meadows next year, and will have to be plowed and seeded anew, are anxiously wondering as to the cause. The most of the grass roots are dead, and the tufts can be easily removed with the foot.

MR. NATHAN BROOMALL, on the westward bound Pacific Express train, found a pocket-book containing a local way ticket and $120 in money. After discovering the rightful owner of the money it was immediately returned to him by Mr. Broomall, the passenger being so highly delighted at again securing possession of his lucre that he actually forgot to say "thank you" to the honest flagman.

THE St. Petersburg Progress says that last week a man named Shoup, living at Richmond, but formerly at Fryburg, Crawford county, while under the influence of liquor, attempted to kill his wife and children. Fortunately they escaped, and he attempted to cut his throat, probably to spite his family. Although he succeeded in cutting a very severe gash, some two inches in length, the wound did not prove necessarily serious, and he is now in a fair way to recover.

PREDICTIONS as to whether the coming winter will be a severe or a mild one, are now in order. The first that we are called upon to chronicle is that of a farmer who is one of the oldest, and who has been very observant of such matters. He confidentially informed the Johnston *Tribune* Saturday that the winter of 1873-4 would be an exceedingly mild one, and predicated his foreknowledge upon the fact that the corn husks are very thin. This, he states, is an unfailing sign.

THE Lancaster Daily *Express* gives a long and startling caption of "Three Alarms in Three Hours—Two Incendiaries after being shot at, set Fire to the shooter's stable." From what we could gather from a perusal of the account we infer that the city authorities should at once see to it that no one could say: "It is well this fire did not occur on Monday night when there was not a inch of water in the reservoir." The *Express* does not state the amount of loss.

SOME seventeen years ago, Dr. John C. Seltzer, of the borough of Jonestown, placed two twenty-dollar bills of the Lebanon Bank in an old German book, and during the money excitement last week, he opened the book and found the two deposited notes. The bill are numbered 11,566 and 11,567, each having the date of September 31, 1856, with Edward A. Uhler as cashier, and John W. Gloninger as president. The notes presented an appearance the same as the day they were issued.

WE are informed that a sharper is traveling through some of our neighboring counties duping honest farmers. He passes himself off as a United States detective, has his warrants, charges his man with having passed counterfeit money, arrests him on the bogus warrant, and if the party resists, he displays a pair of handcuffs, and threatens to put them on if the party refuses to go with him. After he has succeeded in frightening the party, he proposes to compromise for a certain sum and let him go.

THE *Daily Derrick* prepares the following table from the report of the Commissioner of Statistics, showing the *assessed* valuation of real estate in the six counties named, and the real value of the same:

|---|---|---|
| Butler | $ 6,634,931 | $27,936,544 |
| Clarion | 2,369,660 | 15,787,780 |
| Crawford | 7,622,570 | 43,439,205 |
| Erie | 37,387,660 | 58,224,870 |

A CORRESPONDENT of the Corry *Blade*, writing from Union, under the date of the 8th says: Yesterday afternoon the people of Union City who were looking towards the new Presbyterian Church, saw the staging give way and a man precipitated from it, dropping through the air. The alarm was immediately given, and the people ran quickly to the spot, where they found the mangled corpse of Hugh Middleton, a workmen. Mr. Middleton was working on the tower of the new brick church, when the staging gave away, precipitating him to the ground, a distance of sixty feet, immediately killing him.

MISS NANCY WILSON, of North Union township, who lived with her mother on the farm of Mr. Robert Hustead, took a large quantity of arsenic on last Sunday morning, about eight o'clock, which terminated her existence in about twenty hours afterwards. It appears that the deceased and her mother on the evening previous to the sad occurrence, had a disagreement relative to the attention paid to the former by a young man and it is said that the young lady in a fit of passion, to harass or spite her mother took the deadly poison. The deceased was a beautiful young lady, about nineteen years of age.

WE learn from the Reading *Eagle* that on Thursday evening last, two young men named Flickinger and Hemming, of Reading, who were in attendance at the Womelsdorf races, shamefully abused Miss Ada Shartle, a young lady of Womelsdorf, who was visiting at the Nicolls House, near the depot. They seized her and carried her to a box stall for horses, a short distance from the hotel. Her screams were heard by Isaac Kintzer, proprietor of the hotel, who rushed to her rescue, and had a desperate encounter with the villains, in which he was badly stabbed. They, unfortunately, made their escape.

IT IS SAID that for a long time there has existed an ill feeling between the Clearfield and Curwinsville boys. On Friday afternoon last, just at the close of the fair the ball was again opened, and from a small begining ended in regular riot, though no one was seriously injured. The *Raftsmen's Journal* regrets that the fair ended in this manner, and asks: "What else could be expected from an institution that encouraged gambling as did our Agricultural Fair. There could be found no less than three 'wheels of fortune,' as they were called, one 'sweat-cloth,' and one 'three-card monte,' table."

THE Reading *Eagle* is responsible for the following: "Quite a touching affair occurred in the Reading Savings Bank on Saturday afternoon, which afforded a lesson to some men who were in the bank at the time. Two little boys, each eight or nine years of age, came into the institution and stated to the cashier that they heard the bank wanted money and they had come to give them some. Each had a bank book and 50 cents. The money was duly deposited and the little lads left. Soon thereafter another little boy, accompanied by his aged grandmother, entered the bank and deposited 50 cents, 'to help along the bank.'"

JACOB SHANOR, Esq., died at his residence in Centre township, Butler county, about four miles north of Butler, on the 4th inst., aged eighty years. The death of this aged and respected citizen takes away another of the early settlers of Butler county. Mr. Shanor was among those who endured the hardships of the pioneers to that neighborhood, and his narrations of the early events and times in and about Butler were interesting and instructive. He himself was noted for his personal bravery and skill in contending with the obstacles to the early civilization and subduing of the country. Throughout his whole life he was a hard laboring, useful citizen, and a man of the strictest honesty. He filled the office of County Commissioner, many years ago, and in all the relations of life was much esteemed by his fellow citizens.

### ITEMS OF INTEREST.

COUNT MAURICE DE FLAVIGNY, a well-known French politician, is dead.

THE Count de Chambord has taken up his residence two miles from Genoa, Switzerland.

THE Spanish Government has issued an order imposing a duty of five per cent. upon all wines exported after this month.

THE Paris police have seized twenty-two thousand photographs of the son of the late Emperor Napoleon, which were offered for sale in that city.

IT is stated that since the year 1848, in which gold was first discovered in California, that State has produced $1,380,700,000 worth of the precious metal. The greatest yield was in 1853, in which year the product was $68,000,000.

A CORRESPONDENT complains of the practice of shaking carpets on the roofs of houses, and thinks that transferring the dirt from the feet of one family to the heads of their neighbors, is a nuisance which should be abated.

IN 1828 real estate in Columbus, Ga., was valued at $131,000; now at $4,000,000. In 1865 Columbus did not have a cotton mill; now she has six, with a capital of $3,500,000, running 32,000 spindles, 900 looms, consuming nearly 700 bales of cotton, and is rated as the chief manufacturing city in the South, and with three more factories projected.

PERIODICALLY there come misty rumors from the African jungles, each of them rekindling public interest in the great explorer's (Livingstone's) welfare, and each giving some faint, undefinable assurance that, though far from civilization, he carries with him a stout heart, a clear head, and an unflinching determination to accomplish his undertaking, or perish in the attempt. And now we hear that "a white man," proceeding westward along the Congo River, and believed to be Dr. Livingstone, has been captured by the natives. If it indeed be he, he must have journeyed fully two thousand miles from Unayembe, the scene of his reported meeting with Stanley. Who knows but that we may yet announce a lecture from Dr. Livingstone?

## RUPTURE.

There are hundreds of people ruptured who don't know what ails them; there are others who don't know what to do for it, nor where to seek for relief or a cure; others again who have had rupture for years, under the false notion that there can be no danger in the future, as there has been none in the past. This is a fatal delusion, and there is no knowing what day the rupture may become strangulated, and call for a painful and dangerous surgical operation. To avoid so fearful a result, make application to some competent person to have a truss applied. Will a truss cure me, you may ask. Very often it will, but it will always ret in the parts so as to make you secure and safe from danger, and at a cost so trifling as to be hardly worth mentioning when compared with the enormous risk you run in letting it alone. Dr. Keyser, at his office, 167 Liberty street, is provided with every appliance suitable to the retention and cure of this terrible evil. He has trusses at a price as low as can be obtained anywhere in the country, and in every variety and quality—of such vast variety, that the most difficult and long standing cases, of years duration, are made manageable and brought within the province of cure. Let no one deceive themselves into the belief that rupture is never curable; but worst than all, let none consent to "let alone" cure.

Speedily Cured.—All Forms
of Venereal, Private and Nervous diseases at the old established Girard Medical Institute, No. 172 Second avenue, between Smithfield and Grant streets, Pittsburgh, Pa.
NO CHARGE UNTIL CURED.
Syphilis, Stricture, Orchitis, Hernia and all Urinary diseases are cured in the shortest possible time that will insure permanent relief. Spermatorrhea, or Seminal weakness and Impotency, as the result of self-abuse or excess in maturer years, and which produce some of the following effects, as emissions, blotches, debility, dizziness, nervousness, dimness of sight, cough, indigestion, constipation, despondency, confusion of ideas, aversion to society, loss of memory, and sexual power, and which unfits the victim for business or marriage, and ultimately causing insanity and consumption, are thoroughly and permanently cured. Medicines supplied at the Institute. A medical pamphlet relating to private diseases sent in sealed envelope for two stamps. All communications confidential.
This Institute was established for the express purpose of supplying the afflicted with scientific and reliable treatment, and is not to be classed with the numerous quacks and impostors that infest all large cities. The proprietors have made the treatment of Private and special diseases the study of their lives, and can refer to thousands all over the country that have been benefitted and cured by their treatment. No matter how difficult or long standing your case may be, if curable, after a personal examination they will frankly tell you; remember, they have cured many cases given up by other physicians.
Patients treated by mail or express, but where possible, it is best to visit the city for personal consultation, or address:

Highest for gold to-day 109, lowest 108⅜.

NEW YORK, October 10, 1873.

Money ranged from 1-16 to ½ during the greater part of the day, but finally closed at 7 per cent. Greenbacks are still quoted at ⅛ to 1 per cent. premium, with less activity. Gold declined from 109 to 108⅜, the closing transactions being at 108½ to 108⅝. Very little support was accorded the price to-day, and the market dropped off on the announcement of shipments of gold from the other side and some talk about specie payments from Washington. Cash gold was in good supply throughout the day. The rates paid for carrying were 6, 7, 3, 1-32 and 7 per cent. Clearings $35,000,000. The Assistant Treasurer disbursed $89,000. Foreign exchange is lower and almost unsaleable. Bankers reduced the rates to 106¾ and 107¾; but the actual business was at a still lower rate. On the street bankers' sixty days sterling sold at 105¾ to 106¼, and sight at 107. At the close cable transfers were offered at 107. Commercial bills were quoted at 104½ @105. Customs receipts $215,000.

The stock market, after being in the main firm and active during the first two hours of business, became quiet about noon, there being apparently a disposition on the part of the heavy operators to abstain from speculation for the present. Later in the afternoon there was a grand rally, and prices advanced from 1 to 6¼ per cent. The following were the features: Western Union advanced from 59 to 65¼, Lake Shore from 70⅞ to 73¼, New York Central from 90⅞ to 92, Rock Island from 89 to 92¼, Wabash from 43¾ to 45¾, and Union Pacific from 19⅛ to 20⅛. At the close a reaction took place, and prices declined from ⅛ to 1¼ per cent. from the highest point of the day.

## COMMERCIAL.

### PITTSBURGH GENERAL MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, FRIDAY, October 10, 1873.

Business matters, while they are not by any means all that could be desired, are about all that can be expected under existing circumstances and surroundings. As long as the banks refuse to discount, money will of course be tight, and collections hard to make, and the result, very naturally, is that the demand for everything has been considerably curtailed, and business very much contracted. However, there seems to be a better feeling, and the impression is gaining ground that the worst of the panic is over, and that all that is now wanted, is a restoration of confidence. At New York the financial situation is reported as improving, and the volume of trade steadily enlarging. Foreign exchange, says the Shipping List, has ruled firmer and the freedom with which commercial bills have been negotiated has imparted a fresh impulse to the export trade in produce, thus preventing any considerable decline in freights, which would otherwise have been likely to follow the heavy influx of tonnage in ballast from European and other ports. We see it stated that the receipts of wheat at New York last week were nearly three millions of bushels, and of flour about one hundred thousand barrels, a receipts never before equaled in a single week.

APPLES—There is no abatement in the receipts and with stocks accumulating and holders generally anxious to realize, prices are weak though without quotable change; we continue to quote at $2.50@3.50 per brl. for common to prime.

BEANS—$2.00@3 per bushel.

BUTTER—There is a very fair demand for the finer grades, but common stock is very dull, and in good supply; prices remain unchanged. Prime to choice solid packed 20@25; prime to choice roll, 25@28; some dealers still quote the latter at 30, and even 32, but it requires something fancy to bring anything above our quotations.

CHEESE—The market is quiet, but prices are firm and the receipts recently have been comparatively small; we continue to quote prime Ohio Factory, August make, at 13@14 to the trade, and 14½@15 in a jobbing way.

CHESTNUTS—Sales reported at $3.50@10 per bushel. It is not expected, however, that these prices can be sustained any time, as the crop is reported large and increased arrivals soon are looked for.

CRANBERRIES—Jersey Berries quoted at $10@12 per brl., as to quality. The supply of Sackett and Carey Berries as yet is very small.

EGGS—With a supply somewhat in excess of the demand, continued liberal receipts and stocks accumulating, the market is weak and dealers generally are more anxious to sell; we continue to quote at 22@23 cts.

FLOUR—The arrivals continue comparatively light, but the supply is fully equal to the demand, which is confined wholly to supplying immediate wants, and prices remain unchanged. We continue to quote at $7.25@7.50 for spring wheat flours, and $7.75@8 for red winter.

GRAIN—The demand for wheat continues meagre, and the market is quiet, though prices are without quotable change; $1.47@1.50 for red winter; $1.53@1.55 for amber, and $1.58@1.60 for white. The mills here are pretty well supplied, and orders from the interior are few and far between. We can report a continued steady demand for Oats, and as the receipts are barely sufficient to keep up the supply, prices are fully sustained; may be quoted at 45@49c, according to quality—thus far there has been but few sales at the last named figure, and dealers generally regard it as an outside quotation. Corn is quiet but the supply is small, and prices are maintained, 61@65—sale of two cars ear reported at 65, in bulk. Rye is quiet and unchanged, 85@90. The receipts of Barley are increasing, but it is mostly consigned to brewers, who are buying in the west.

GRAPES—Sales at 5@7c ₩ lb.

GROCERIES—There is only a moderate trade in groceries, and no improvement is anticipated until the money market begins to work easier. Coffee is still quoted dull in New York, but prices are firm, and notwithstanding stocks are rapidly accumulating in first hands, there is no disposition on the part of importers to make concessions. Sugars continue dull and weak, and we reduce our quotations an ⅛ all round. Syrups continue dull.

COFFEE—Choice Rio, 27@28; good to prime 25@27c; fair, 24@25c. Roastedone lb. packages 30c; loose, 29½.

SUGARS—Patent Cut Loaf, 13¼c; Crushed, Powdered and Granulated, 12; Standard A, 11¼; B, 11⅛; Ex. C, 11; Franklin Ex. C, 10⅞. Other Yellow Sugars, 8@10.

SYRUPS—Extra White Drips, 80c; Sugar Drips, c; Amber, 65@75; lower grades, 45@50, as to quality.

RICE—Carolina Choice, 9¾; Patna, 8¾; Rangoon, 7¾@8.

MOLASSES—Choice New Orleans, 78@80c; Prime 73 to 75.

HONEY—Is selling at 33@35c per lb.

HAY—There was more than an average supply of loose hay in Allegheny, but with an active demand prices were fully sustained, ranging from $23@28 ₩ ton, according to quality. The market for baled continues dull, and prices are weak and drooping; we reduce our quotations to $20@23.

POTATOES—Sales of Irish at 85@90 cents per bushel by the carload, and Sweets at $3.50@4.50 ₩ brl. the outside figure for prime Jerseys.

ONIONS—$4@4.50 ₩ brl.

PEAS—$1.75@2 ₩ bushel.

POULTRY—Live chickens, by the coop, 50@75c per pair, according to size.

PROVISIONS—Extra Sugar Cured Hams, ₩ lb, 15, Ex. Sugar Cured Shoulders, 11; Sugar cured Breakfast Bacon, 13½c. Extra Sugar Cured Dried Beef, 16½. Beef tongues, $7.50 ₩ dozen. Bacon Shoulders, per lb, 10c. Bacon Rib Sides, 10½c. Bacon Short Rib Sides 11c. Bacon Clear Rib Sides, 11½c. Mess Pork, $17.00 per barrel. Refined Lard for summer use, in tres, 9¾. Do. half bbls, 10½c. Do. bkts 11c. Do. in 3 lb. caddies, 12½c. Do in 5 lb. 12¾c do. in 3 lb. pails 13¼c ₩ pound. Do. in 8 lb. pails, 13. Do in 5 lb. pails, 13¼. Lard Oil, Ex. SEEDS—Flax Seed is unchanged at $1.90. No movement in either Clover or Timothy.

TALLOW—Quoted at 7¼@8c ₩ lb.

WHISKY—Highwines steady but unchanged at 97@98.

### PITTSBURGH IRON AND NAIL MARKET

OFFICE OF THE PITTSBURGH GAZETTE, FRIDAY, Oct. 10, 1873.

The situation remains substantially as noted in our last weekly report. Orders have slacked off somewhat, as was expected, but the mills are all running, although some that were running double are now working single turn only. Prices remain without quotable change, although we presume that a cash buyer could do considerably better than quoted rates—at least it is so in other commodities, and there is no reason why iron should be an exception. Greenbacks are in more active request just now than anything else, and those who have the ready money are in a position to almost dictate their own terms. We continue to quote selling rates on a basis of 3 and 4 to 3 and 5 tenths for bars—the card remains unchanged at 3 and 8 tenths. The demand for Nails which was very active prior to the panic, has also slacked off somewhat; but the factories are still reported as having all they can do, and it is hoped that by the time our manufacturers have filled their old orders, new ones will have commenced to come in pretty freely again. Prices are fully sustained, and stocks, both in first and second hands, are reported as being unusually light.

TERMS—Note or acceptance at sixty days, with exchange on New York, or discount of two per cent. for cash, if remitted within ten days from date of invoice. Payments to be made in New York Exchange, United States Treasury Notes, or their equivalent. No discount on bills of less amount than fifty dollars.

### PIG IRON AND BLOOM MARKET. WEEKLY REVIEW.

OFFICE OF THE PITTSBURGH GAZETTE, FRIDAY, October 10, 1873.

The pig iron trade, so far at least as Pittsburgh is concerned, has been very dull during the week which has just closed, and the market is an unsettled and unsatisfactory condition. The inquiry, what little there is, is restricted entirely to supplying immediate wants, and no improvement in the demand can reasonably be expected until there is an easing up in money matters. One of our leading commission firms reported having sold but ten tons during the entire week, and we heard of another firm that had sold but one ton, and it, we presume, was on trial. Consumers are virtually out of the market; some of them affirm that they would not buy even if inducements in the shape of concessions were offered. Sellers, feeling the situation are making no effort to sell, knowing as they do that any attempt to force sales would have a damaging influence on the market. Furthermore, producers, as a rule, feel that they may just as well keep their product as sell on time, even if they could, as notes in the present condition of affairs cannot be made available. Prices are entirely nominal—there is not enough doing to establish quotations.

### PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, FRIDAY, October 10, 1873.

The oil trade seems to have recovered entirely from the effects of the panic: it is said that it is in just as prosperous a condition now as it was prior to the breaking out of the financial trouble. Our refiners are all running to their full capacity, and, from what we can learn, those of Cleveland and other points are in the same fix, yet the supply is inadequate to meet the demand; and notwithstanding the exports thus far this year are the largest ever known in the history of the trade, there is no abatement in the demand. There is not much doubt but what the oil refining business to-day is in better condition financially and every other way, than any other branch of business in Pittsburgh; as we have already stated, there is an active demand and, furthermore, there is a very handsome margin. Crude is steady at $1.10@1.15 per brl at Parkers, equal to 3⅛@3⅜ cts. per gallon here. Refined is quoted at 16⅛@16½ for October, delivered in Philadelphia, and 15⅞@16 for November.

Oil Barrels in demand and firm at $2.10 for countries, and $2.15 for city make. An advance soon is not improbable.

## RIVER NEWS.

The stage of water last evening was scant 2 feet. Weather clear and pleasant, prospects for water continue very discouraging.

—Yesterday's Cincinnati Gazette says: The Robert Peebles arrived yesterday with 4 stone boats and one of tan bark. She will start up the river again to-day. The Peebles reported a limestone boat aground at Four-Mile, and swung across the channel. The Andes, which arrived later, reported the C. P. Huntington badly aground, and the limestone boat lying along side. The Jas. Hoberon succeeded in removing an obstruction from Four-Mile yesterday, under the orders of Col. Merrill, and has gone to Brush Creek to improve the channel of the river at that point.... On Monday, at Jefferson City, Mo., certificates of incorporation existence, was issued by the Secretary of State to the "John A. Scudder Transportation Company" of St. Louis. Capital $75,000, with privilege to increase to $200,000. Directors for the first year: A. J. Carter, L. T. Webber, and John A. Scudder. Business objects, the purchasing, building and running of steamboats and barges.. Wharfage collections for the week ending last night amounted to $89.55.

—Latest Upper Missouri items: The Peninah left the Crossing on Thursday for Buford. The E. H. Durfee and Key West passed Randall on Friday. The Miner passed Bismarck on Wednesday, downward bound. Capt. Mart Coulson takes charge of the Western upon her arrival. The May Lowry and Ida Stockdale left the Crossing on Tuesday last, the former for St. Louis and the latter for Fort Sully, with a trip of soldiers. The Josephine, from the Yellowstone, reached Yankton at noon on the 4th. She transferred her troops to the Western, and the latter steamer left for Omaha at 2 o'clock P. M. The Nellie Peck, going up the river, took fire below Yankton, and came within a scratch of going to destruction. Before the fire was discovered it had made considerable progress. Holes were cut in her deck and the hose was turned upon it. Much of her freight was damaged.

—The cause of the sinking of the Alex. Mitchell, at Keithsburg, has at last been discovered. The Rock Island Union says: "She ran on an old wreck, which came very near sinking her, but she unloaded and kept on her way up the river." The Davenport Gazette says: "She ran upon a rock, and had a hole knocked in her hull that set her to sinking very rapidly. Had no assistance been near, she would have gone down in fifteen feet of water." The St. Louis papers differed also as to the cause of sinking, one saying it was owing to her bottom seams opening too much. She had been leaky for some time. Now let her pilots speak up and tell us what caused the Alex. Mitchell to sink.

—A Cincinnati dispatch under date of yesterday says: Pilot George Clarke, who was suspended on the charge of causing the collision between the Comet and R. A. Babbage, last July and who applied to Supervising Inspector Burnett, has received the papers reinstating him as a Cincinnati and St. Louis pilot. Captain Frank Oaks has sold his interest in the Crawford House and returns to the river, taking command of the Alaska this season.

—On Sunday last, the steamer Illinois arrived at Cairo with about thirty people, who were fleeing from Memphis to points North. One old lady in conversation with Captain McKenney said: "I kept a boarding house in Memphis and I had thirty-one boarders. Thirty of them took the fever and died, and the last one took sick, and I just left the premises, and am going as far North as I can get."

—The St. Louis Democrat of Thursday, says: Business on the rivers tributary to St. Louis is not quite dead yet. The Clinton, coming down, refused freight, and left again without taking all that was offered her here. The Susie Silver refused freight yesterday for New Orleans, and the Mary Poe accepted it. There is a good deal of freight daily for Memphis and Vicksburg.

—The New Orleans Times of Sunday says: Mr. Wm. Crane, for many years mate on many steamers, and late of the steamer Ouachita Belle, died here on Saturday night. Mr. Crane was aged about 37 years, and was a native of West Virginia. The steamers in port yesterday displayed their colors at half-mast as a token of respect for the deceased. Peace to his ashes.

—The H. C. Yaeger cracked her small larboard cylinder below Cairo, and banded it, but was compelled to band it again when she arrived at Cairo, on Wednesday, which detained her all day.

### Mr. Lightcap's Buggy Turns Up.

A certain party, whose name it is unnecessary to mention, concluded that he would visit the races at McKee's Rocks on Thursday. With this object in view he hired a horse and buggy, and drove off in high spirits, the day being bright and pleasant. We will not undertake to say how many men he called to see on the way, or how many friends he met on the race track; but certain it is that when he started to return home he got in the "wrong box." He reached the ground where his horse had been tethered for the time being, and unhitching the animal he started for the city. He was astonished to find that Bucephalus had so much improved by his feed, without oats. When he reached the stable judge of his surprise when the proprietor inquired "Where did you get that horse?" He assured the proprietor that he had hired it there, but the latter replied that their horse was of a different color, and that he had taken out a "jagger" wagon instead of the top buggy in which he was riding. Then the officer remembered about the remarkable speed of the horse, and finally became convinced that he had made a mistake. Then he hunted up two men, and paid them to drive back to the "Rocks" to hunt up the horse and to return the one he had taken. This little incident explains the sudden disappearance of Mr. Lightcap's horse and buggy, which has been heretofore noticed in these columns.

## RUN OVER AND KILLED.

### Accident to a Child.

Coroner West, yesterday, held an inquest on the body of Hattie B. Walton, a little girl aged five and a half years, at her residence in the old "Green Tree" tavern, Tenth ward, Allegheny, on the Perrysville Plank Road. Deceased was out playing on Thursday afternoon, when she ran against the wheels of a lumber wagon and was thrown down, the wheels passing over her, killing her instantly. A verdict of accidental death was rendered.

## CHOLERA MORBUS.

### Sudden Death of an Aged Lady.

Coroner West, yesterday, held an inquest on the body of Eliza Crawford, a widow, aged sixty-five years, who had died rather suddenly at her residence on Laurel avenue, Sixteenth ward, late Bloomfield. She was taken sick on Thursday afternoon with vomiting which continued till evening when she became worse. She refused any medicines given her and would not have a physician attend her. She grew worse, the vomiting and purging continuing till yesterday morning at four o'clock when she died. Physicians gave it as their opinion that she died of cholera morbus, and a verdict in accordance with the fact was rendered. Deceased was a native of Ireland and leaves three grown up children.

## A MINIATURE RIOT.

### The McKee's Rocks Races—Riot on a Small Scale—Police Present but no Arrests Made.

Yesterday afternoon, about three o'clock, an occurrence took place at the race ground at McKee's Rocks, which for a time bid fair to assume a serious aspect. The facts, as stated to us, were as follows: Irwin Redpath and Sam. Keys were on the ground selling pools for the races, and whilst so engaged, a man named Davy Jones came to their stand and asked Redpath for the loan of one dollar, which was refused, whereupon Jones undertook to take the money from the drawer, which proceeding was opposed by Redpath, when, it is alleged, Billy Patch struck him with a "handy billet." Keys took the money out of the drawer and separated from the belligerent crowd, which broke up in a disgraceful row. There were several policemen on the ground, but no arrests were made. It is proper to state that those having in charge the peace and order of the track during the races are not to blame in the least for this outside show.

## DISTRESSING OCCURRENCE.

### A Little Six Year Old Girl Shot Dead by a Ten Year Old Brother.

A most distressing accident occurred yesterday afternoon at Negley's Run, to a little daughter of Mr. Anthony Wolf. Mr. Wolf is the proprietor of a brewery at that place, and yesterday he went out as usual, leaving his family at home. He is the father of several children, and among them is a little girl named Maggie, aged about six years. During the afternoon the mother went into a room and left Joseph, a boy aged about ten years and the little girl together in another room. In this apartment was a revolver in a cigar box, which the boy unfortunately got hold of. He commenced to fool with it, and had cocked it, while he had the barrel pointed towards his sister's head. He pulled the hammer, and the cartridge was exploded, the bullet entering the child's head, penetrating the brain. The mother heard the report of the revolver and came rushing into the chamber, only to find her child lying senseless upon the floor, weltering in her still warm life blood, with her brains oozing from the wound in her head. The boy stood aghast at the result of his carelessness and the mother almost crazed, clasped her dying darling in her arms and laid it upon a bed. Dr. Perchment was hastily sent for, but he could do nothing towards saving the little innocent's life and it lingered unconscious for about two hours when it died. The accident cast a pall over the family and the father as well as the mother were overwhelmed with grief. The boy Joseph, who was the cause of the accident, is a rather bright and intelligent looking lad and appears to feel poignantly the terrible effect of his fooling with fire arms. Coroner West was notified and he will hold an inquest this morning. The parents of the child have the heartfelt sympathy of their neighbors.

He is minus a pocketbook containing one hundred dollars which he charges Brown with taking, and Brown looks dark between the bars of a cell in the Allegheny lockup.

····Register Gray convened his Court yesterday to hear additional testimony in the W. Cully, Clark Bond case. Major Wm Frew was called to the stand, and in answer to inquiries stated that upon examination he could discover no other endorsements or obligations made by Mr. W. Cully in force at the time of his death save about $5,000 in one instance and the amount he had endorsed for Clark—save $35 000. The case here rested, and an adjournment was had until next Tuesday.

····A man who gave his name as McCallop visited McKee's Rocks on Wednesday to witness the races, on his return he alleges that he was beset by a party of gamblers who induced him to try his hand at a game of three card monte. He consented and lost some forty dollars on what he thought was a "sure thing." He now seeks the aid of the police to recover the lost forty dollars. We advise Mr. McCallop, and all such, read the newspapers carefully, and to beware of smooth-tongued blacklegs whether they may meet them on the way home from fairs or any other place.

····Detective Jos. Cupples has entered suit for the recovery of the five hundred dollars reward offered by the City of Altoona for the arrest and conviction of any of the party who was found guilty of causing the numerous incendiary fires in that city about two years ago. Mr. Cupples claims to have "turned up" the guilty party, who confessed his guilt, and is now in the penitentiary. The committee of the Altoona Councils offered Mr. C. one hundred dollars, provided he would give a clear receipt for the amount, which he declined to do, and the matter was placed in the hands of Blair county lawyers, who have commenced suit for the full amount of the claim.

····In conversation with an intelligent and extensive coke dealer from the Connellsville coke region, yesterday, in reply to the question as to whether he found any difficulty in procuring small notes, replied that just now there was a scarcity of both *large* and *small* notes. "But," said he after a moment's pause, "you Pittsburgh folks need not be in the slightest degree alarmed about the situation of the Connellsville coke men. We can get along without either 'big' or 'little' notes, at least for a time, as the laborers in that region are not afraid to trust their 'bosses.'" We may add that large amounts are required semi monthly to pay the miners and others engaged in the digging of coal and the burning of coke in the region mentioned.

····Mayor Blackmore has received a letter from Carlin, Elko county, Nevada, in which it is stated that a soldier by the name of Henry Thompson was killed by being run over by the cars of the Central Pacific Railroad, on the 31 of this month. The writer says the accused was shot by a gambler, and that he held an inquest on his remains. He now writes to the Mayor of this city in the hope that his friends may be apprised of his untimely end. The Mayor detailed officer Cupples to inquire into the matter. He visited the Recruiting Sergeant on Penn street. He there learned that the deceased enlisted on August 7, 1873, under the name of Henry Thompson, but that his real name was Hamilton. He was sent to St. Louis barracks August 28. Deceased was born in Washington county, Pa.

····A boy only seven years of age, whose parents reside in Indiana, was placed in school by his mother. The young American did not relish the restraint of the school, and concluded to "travel," and started for New York. He asked a gentleman if he might travel under his care. The gentleman consented, and the lad managed to elude the conductor until the train reached Columbus, where he received a dispatch from the boy's mother, requesting that the little wanderer be put off the train here. This was done, and the boy went to one of the hotels and inquired for a gentleman who is a friend of the family. Fortunately, he gained the needed information, went to the gentleman's office, and was duly taken in charge. He will be sent directly home. He said, in explanation of his course, that he thought if he could get to New York he could get a situation as a "cash boy."

····The Union Pacific Railroad Company sold during the month of September, 1873, 20 230 51-100 acres of land, at an average price of $6 27 6-10 per acre, amounting to $126 970 86. Sales averaged 121 86-100 acres to each purchaser. Total sales to October 1, 1873, 799,748 73-100 acres, at an average price of $4.50 per acre, amounting to $3,595,460 63-100. This company has a land grant of 12,000,000 acres, lying on each side of the track, and extending through one State and three Territories. 3,000,000 acres of choice farming lands on the first 300 miles of the road in the State of Nebraska, are now for sale at very low prices, on ten years' time with interest at six per cent.—no interest is required in advance. A discount of ten per cent. is allowed when full payment is made in cash at the time of purchase. Mr. O. F. Davis, Land Commissioner at Omaha, Nebraska, will give all the information desired to parties wishing to buy land.

····Tailors, washerwomen, bar tenders, saloon keepers, livery stable keepers, jewelers, etc., etc., are anxiously inquiring the whereabouts of a gay and festive youth named Walter Jordan. He is about twenty-three years of age, and is known to many in this city and Allegheny. Mr. C. Hollyland, engraver with Messrs. J. T. Scott & Co., jewelers, 31 Fifth avenue, has had him in his employ for about six years—three years in Chicago and three in this city. About a year and a half ago he got into the ways of being a fast youth. Although supposed to be dependent upon a moderate salary for support, he indulged in adornment for his person with the profusion of a Prince. Handkerchiefs that cost five dollars each, and other articles in like proportion of value were indulged in to an unlimited extent. But alas, James has fled for parts unknown, and he is mourned by a large number of his dupes, male and female.

## RIOTING MILITIA.

### Disgraceful Conduct in the Union Depot.

Last evening, a little after five o'clock, a disgraceful scene occurred on one of the passenger cars of the Pandhandle road, at the Union Depot. A company of militia, who had returned from the review at Greensburg, had bivouacked in the Union Depot, and during the day some of the men got disgracefully drunk. They had got on board the car, when a fight ensued among them, and for awhile a small riot reigned within. On the platform was placed a sentry, who seemed to have orders to let none of the men out. One of the men tried to get out when the sentry pointed his bayonet toward him, threatening to run it in him. A non-commissioned officer stood on the rear platform, who shouted, "Run the bayonet in the s———." The sentry did attempt to do it, when some of the man's friends pulled him away. Shortly after, a colored man came up, who wanted to see a friend that was in the car. The sentry's greeting to him was, "You s———, you can't come up," finishing with an oath. He threatened to kill the first man who tried to get in or out, but he let the brakeman pass. The officers of the men either had no control of them or did not care how they acted. The men continued to act lawless within the car, and finally they got one of the men down and "bucked and gagged" him, using a bayonet as a gag. Their conduct drew the attention of everybody on the Wilkinsburg accommodation, which was about ready to leave, and many ladies were very much frightened lest some shooting would be done. Some of the men had their guns loaded and did considerable threatening, but none were shot, though it was stated that several were badly stabbed with bayonets and cut about the head and face. None of them, however, were dangerously hurt, and no arrests were made. The conduct of the men reflects the greatest discredit upon all concerned.

## PERSONAL.

····Mr. Robert Murdoch, the gentlemanly clerk of the Union Depot Hotel, has returned home from a western hunting tour. A buffalo robe, which he bought, and a cold which he got, he brings home as relics of the trip.

The attendance was very large. Numbers from Pittsburgh, Allegheny, Brownsville, Salem and Mt. Pleasant were among the visiting brethren. The offerings on the occasion amounted to $112. Our colored brethren are working hard and effectively.

The enterprise is under the care of the Presbyterian City Mission.

The *United Presbyterian*, referring to Mr. Blanvell's articles on Christianity, in *Scribner's*, thinks he is unduly excited, and though believing with him that "it is the duty of scholarly laymen to come to the front" to help advance Christianity, yet tersely remarks: "We would not discountenance proper use of science, nor would we reject the help of laymen; but we are not prepared to admit that, because they are laymen, they have special fitness for the defence of our religion."

The members of the Union M. E. Church, Allegheny, took supper, uninvited, with their pastor, Rev. I. N. Baird, on Thursday evening. ## MUST REDUCE.

### In Ill-Health and Must Discontinue

A great closing out sale is going on now at Big 13 Sixth street. The proprietor has lately got in ill-health and the fact that he has a large stock of fashionable clothing on band, and that his creditors are urgent in their demands; he has made up his mind to reduce his stock as quickly as possible at prices that must astonish even the natives, who are used to bargains. He has concluded to retire entirely from business, as his health will not admit of him longer giving his attention to it. The stock of ready made goods on hand is something marvelous, and includes goods of foreign and domestic manufacture. His stock of clothes for Fall and Winter wear are as complete as could well be imagined, and includes cloths, cassimeres and vestings of the latest and most fashionable designs. Now is the chance to get a suit either ready made or to order, at the lowest possible price, by calling at T. Tobias', Big 13 Sixth street, who is selling off regardless of cost.

### Fine Furniture.

Messrs. J. N. Dryden & Co., of 182 Federal street, Allegheny, have on hand for the Fall and Winter trade, a beautiful assortment of all styles and grades of furniture, which they are offering at prices which are very low. Their furniture is reliable, and purchasers can be assured that anything bought from this firm will not be required at the repair shop in a few weeks from the date of its purchase. They are large dealers and can offer inducements to buyers which cannot be afforded by smaller establishments.

### Good Goods.

A man's clothing account, during the year, is quite an item, and by care in the selection and purchase of the same, a nice little sum of money can be saved. Buy your clothing then from a first class house, where is kept a large assortment from which you may select, and be certain that the quality of the goods is of the best, because, let money be tight or loose, the best is the cheapest. And now for the place to fill the bill, which is the Boston One Price Store, at 95 Smithfield, where you will find goods to suit all, at prices to suit the times. Cheapest clothing in the city. Come and get a bargain.

*Full Bench, Chief Justice Read Presiding.*

On motion of A. M. Brown, Esq., H. J. Moore, of Beaver, was duly admitted and qualified to practice in this Court.

STREET ASSESSMENTS.

Allegheny City vs. Blair. Error to the District Court. Argued by Rodgers for plaintiff in error, and by Slagle, contra. The question in this case was as to whether the cost of a certain wooden curbing placed on the river side of Bank Lane, now River avenue, at the time of the paving of that highway, was properly included in the assessments upon the property holders, or should be paid by the city. Plaintiff filed a municipal claim for grading, &c., River avenue, and asked for $155.58 with interest from April 19, 1871, and five per cent. attorney's commission in the Court below, and the Prothonotary was directed to enter judgment in favor of the defendant, which induced the plaintiff to file a writ of error.

AN OIL CITY BOND

The case of the borough of Oil City vs James L. McAvoy, for the use of H. L. Bollman, was next argued by James Bredin, for plaintiff in error, and R. S. Woods and M. A. Woodward, contra. This was an action on a bond for $1,000, judgement on which was confessed by the defendant's counsel. Mr. Bredin then moved to strike the judgment from the records as having been entered without authority of law. This rule was discharged.

A BOUNTY BOND.

Appeal by School Directors of Lower St. Clair township. Error to the Common Pleas Court. Argued by Smith for appellants and by Fetterman contra. This is an appeal from the decree of the Court enjoining the School Directors of Lower St. Clair township and Andrew Stein, the collector, from collecting a tax levied by the Board to pay off outstanding bonds which had been issued for the purpose of raising money to pay volunteers under the several calls made for troops to aid in putting down the late rebellion. The bill in equity was filed by David Hunter and William Hughey in May, 1869.

Quinn vs. Adams Express Company. Error to the Common Pleas of Allegheny county. Non prossed on account of the absence of the attorney in the case.

DIVISION OF SCHOOL PROPERTY.

School District of the Ninth ward, Allegheny, vs. the School District of McClure township. *Certiorari* to the Common Pleas Court of Allegheny county. Argued by C. C. Taylor for plaintiff in error, who relied on the unconstitutionality of the act dividing the district for school purposes, but the court decided the act constitutional, and affirmed the proceedings of the lower court. The division of the school property made by the lower court will now have to be accepted.

McGinnis vs. the Commonwealth, error to the Common Pleas Court. Argued by Large for plaintiff in error, and by Brown contra. [See elsewhere.]

### Great Bargains in Boots and Shoes.

There is no article of wear that requires greater caution in the purchase than that of boots and shoes. They are often manufactured in a style sufficient to deceive even an expert, and the buyer is consequently bound to rely on the representations of the dealer for the quality. To all persons contemplating the purchase of a winter supply of Boots and Shoes we specially commended the establishment of W. G. Hoover, No. 28 Fifth avenue, as one where the best articles can be had and that too at a reasonable price. Mr. Hoover has just returned from the East, and is now receiving an immense assortment of Boots and Shoes, which were selected in the Eastern markets with great care and attention as to quality of material and durability of make. They were bought for cash and, buying largely, they were secured at the very lowest rates, and will be sold to customers exceedingly low. This house has acquired a reputation for quality of goods, truthful representations, courteous attention to patrons, and prices to suit the times. And, still greater bargains are now in store for the patrons of this house, the proprietor being determined that no house in the city shall undersell them. Call and examine the extensive and excellent assortment and the very low figures at which they will be sold.

**Fine Dress Hats** a specialty at Graham & McGregor's, 46 Federal street, Allegheny, one square below the depots.

### How to Increase Wages.

This is a matter of no small moment to workmen, and yet, "if a penny saved is a penny earned," how easily it can be done. It is admitted that some houses sell the same quality of goods at a lower figure than others. Then in all your purchases, of whatever name or nature, select an establishment that will give you value received for your money. For instance, do you expect to purchase some ready made clothing, something that is excellent in quality, and neatness of fit, then you can earn twenty per cent. on every dollar you expend by making your purchases at the Boston One Price Clothing Store, No. 95 Smithfield, because at this house the goods are all marked down to panic prices. Men's underwear and furnishing goods at less than wholesale rates. Examine the stock and prices and be convinced.

### Opera Glasses

For sale or hire, at

Geo. Crawford & Co's,
No. 76 Fifth avenue.

### Superior Mechanism.

Messrs. Caughey, McCallen & Co. whose reputation for the manufacture of fine carriages has become so well established, have recently been engaged in the construction of many extremely handsome vehicles for residents of this vicinity. The fact has been demonstrated that this firm can turn out carriages that will challenge comparison with those of Eastern make; and there are so many obvious reasons for procuring carriages from responsible and reliable manufacturers that our citizens are now buying largely from this establishment. If you contemplate the purchase of a carriage or wagon, call at the manufactory No's 52 and 53 West Diamond, Allegheny City.

**The Celebrated Fulton and Tourist Hats** at Graham & McGregor's, No. 46 Federal street, Allegheny, one square below the depots.

### What is the North Pole?

This question seems to be affording a great deal of uneasiness to scientists at present, but the question which most concerns the practical minds of our people is, Where to deposit the large amount of money that is now filling the "old stocking" and the secluded nooks of the garret and cellar. To all such we would say that a secure and reliable institution in which to lodge your funds may be found in the Smithfield Savings Bank on Smithfield street, one door from Diamond street. First class financiers preside over this institution, and depositors can feel assured of their funds being faithfully guarded.

## COUNTY POLITICS.

### Winding up the Campaign—The Proposed Meeting for To-night Postponed—Letter from Hon. J. W. Forney—Preparing for Tuesday Night.

Yesterday afternoon the last meeting for the campaign of the Republican County Executive Committee was held at the Lincoln Club Rooms, which was largely attended, and at which every confidence was expressed in the result of the election next Tuesday.

The meeting was called to order by Jacob Reese, Esq.

Mr. Reese stated that at the former meeting of the Committee he had announced that the Hon. John W. Forney would probably be here on Saturday evening, and on that information the committee had decided to hold a mass meeting at that time in City Hall. He regretted to say that since then he had received a letter from Mr. Forney, stating that it would be impossible for him to attend. The chairman stated further that he had endeavored to get another eminent speaker from abroad, but engagements had prevented.

By direction the Secretary then read the following

LETTER FROM HON. J. W. FORNEY.

Office of the Press,
Philadelphia, October 8, 1873.

My dear Sir: Mr. Errett, Chairman of the Republican State Central Committee, has handed me your kind note of the 3d inst., inviting me to address a meeting in Pittsburgh on the Saturday evening before the election. I regret that my laborious editorial engagements will prevent me from attending on that occasion, but I beg you to believe that at no period has my attachment to the Republican party been more fervent and earnest than it is at the present day. In fact, our principles have been so irresistible as to have destroyed almost every other organization, and nothing in the long catalogue of Republican achievements—after the overthrow of slavery and the maintenance of the public credit and the complete assertion of the equality of all the races before the law—nothing, I say, has been more beneficial than the great doctrine of the protection of American labor. To this we are indebted for a thousand practical blessings in our State, and this must be one of the chief agencies in the permanent reconstruction of the South.

Very truly yours, J. W. Forney.

Jacob Reese, Esq., 68 Smithfield street, Lincoln Club Rooms, Pittsburgh, Pa.

On motion, the proposed meeting was postponed.

Mr. McBrier, Chairman of the Committee on Meetings and Speakers, announced meetings for Monday evening at Sharpsburg and Turtle Creek. (The announcements will be found, in full, in our advertising columns.)

Mr. T. J. Bigham, and others then, addressed the meeting.

The Chairman then announced that the election returns would be received on Tuesday evening at City Hall, when the Great Western Band would be attendance.

Adjourned.

## THE MAGINNIS CASE.

### The Matter Before the Supreme Court.

Among the cases argued in the Supreme Court yesterday was that of John Maginnis against the Commonwealth *ex rel.* Elenor Maginnis. This is a reviving of the old case of John Maginnis which attracted so much attention when tried in our local courts. Maginnis, it will be remembered, owned a lot of ground which he desired to sell to the Pennsylvania railroad for stock yards, and had negotiated for when proceedings were interfered with by his friends, who alleged that by reason of intemperate habits he was not competent to do business. A commission was appointed in the nature a writ of *de lunatico inquirendo* to inquire into the question of his habitual drunkenness. The Commission returned a report finding him an habitual drunkard and a jury trial subsequently being held the same conclusion was arrived at. His property was then placed in the hands of Jacob H. Walter as trustee. The case was accordingly appealed to the Supreme Court. There are some fifteen specifications of error, which may be consolidated under the heads of want of sufficient evidence to show McGinnis to be an habitual drunkard, errors of the court in ruling out certain evidence going to show his competency for business, and lastly error in the court in assuming the power to take care and custody of the person and estate of McGinnis—the constitutional question being here raised, "whether or not the court have power to assume the care and custody of the person and estate of an habitual drunkard." The case was argued by John R. Large for Plaintiff in error and by Major A. M. Brown for defendant in error. The decision is looked to among the legal fraternity especially with considerable interest.

## THE BUSINESS OUT-LOOK ON THE SOUTH SIDE.

### The Workmen Satisfied with Half Pay—They have Entire Confidence in their Employers, &c.

The general topic of conversation last Saturday night on the South Side, was the system adopted by the manufacturers, of paying only half wages until money matters become somewhat easier. We are glad to state that nearly all the workingmen are perfectly satisfied with the arrangement, and that a general feeling of satisfaction exists among our mechanics and mill men to work alike to their own interests, and that of the manufacturer. At the present time no doubt our merchants will feel the effect of the men only drawing half pay, but in the end it will be of peculiar benefit to them, as it will enable them to sell their goods on a few week's time with the assurance that when the wages deposited in our banks by the manufacturers are at the disposal of the workmen, our merchants will be likely to receive the greater portion. Our banks, by this hearty co-operation, will receive a firm and substantial footing which will enable them to weather through the present struggle, and in the end will be better able to supply all demands that are likely to come upon them in the future. With but one or two exceptions our glass manufacturers are paying in full, and have plenty of orders ahead. The window glass manufacturers have not yet been able to come to terms with their blowers, and we are sorry to say that an amicable arrangement seems far off in the distant future.—*Pittsburgh (South Side) Herald.*

## COLLECTING THE TAXES.

### The Compensation to Collectors—A Plan to Economize—Reducing the Rate.

Yesterday afternoon the Finance Committee of City Councils held a special meeting to consider the rates of compensation to be paid collectors of delinquent taxes. The following letter, in relation to the matter, was read:

Office of the City Treasurer,
Pittsburgh, October 1, 1873.

*R. J. McGowan, Esq., City Controller:*

Dear Sir: On my return from California, a few days since, I found that Mr. Phelps had, during my absence, under instructions from me, stipulated with the tax collectors of the several wards, that they should collect the taxes on their duplicates for the fixed compensation of five per cent. This was done to avoid uncertainty by reason of the terms of the Act of 18th of April, 1873, which provides that on all taxes remaining unpaid after August 1st in each year, "the sum of ten per centum shall be added for expenses of collection." Some of the Collectors are dissatisfied, thinking that *they* are entitled to the full ten per centum. This, in my opinion, would be an inordinate and excessive compensation, and more than the sum intended to be allowed them by law. The phrase "added for expenses of collection" means, in my opinion, all the expenses of collection. Now, the city is at great expense for books and clerk-hire in preparing the duplicates for the Collectors, and ought to be reimbursed out of the additional sum, besides something as a penalty for not paying promptly. Independently of the Act of 1873, the Act of April 13th, 1859 (P. 3, P. L. 599) fixes the compensation of Collectors at five per cent. This portion of the Act is, as I am informed, unrepealed. As a precautionary measure, however, each Collector was required to agree to collect for the sum of five per cent., the balance to go the treasurer for the use of the city, in accordance with the provisions of the Act of 1859. In some of the sparsely populated wards, five per cent. would not justify a man in accepting the position. I wish, therefore, you would bring the matter to the attention of the Finance Committee, so that I may be sustained in the premises. I should be vested with some discretion in fixing the compensation of collectors in wards where a comparatively small sum is to be collected, or the Finance Committee should fix it themselves. This should be done soon, before the Collectors commence to pay over their collections. Very respectfully,

C. L. Magee, City Treasurer.

The letter was received and filed, and accordance with its suggestions, Messrs. McCandless, E. P. Jones and House, in connection with the City Treasurer, were appointed a committee to fix the compensation of Collectors in the sparsely settled districts. It is estimated that by thus fixing the compensation at five per cent. generally there will be a saving of $16,000 to the city.

## THE LIQUOR LEAGUE.

### A Secret Meeting Yesterday—Discussing Politics—The Stand Taken by the League—Who They Will and Who They Won't Support.

Yesterday afternoon the Liquor League of Allegheny county held a meeting at their headquarters, Maltby's building, Fifth avenue. The meeting was held with closed doors, and reporters were requested to stand upon one side—the outside, not within earshot. Nevertheless some information of their deliberations was received, from which it appears that the chief business before the League was a discussion of the political situation.

The discussion embraced a consideration of the record of each of the candidates now before the people for office, and all the men on all the tickets, both State and county, were pretty freely canvassed. The result was the adoption of an agreement embodying a resolution to the effect that no one on any ticket adverse to the liquor interests would be supported; that no man endorsed by the Prohibition party would be supported; and that any man adverse to the legitimate interests of the liquor trade would be scratched, be he Republican or Democrat.

During the discussion it appeared that with one exception the candidates on the Republican County ticket were not objectionable—the objectionable candidate being one who was running for a high office.

It is said also that the State ticket was the subject of a very spirited discussion, in which there was manifested a decided opposition to the Republican candidate for the Judiciary.

Letters were also read from all sections of the State, tending to show that the general organization was strong and growing stronger every day. The effect of Local Option in the several counties was also discussed, but no definite action in reference to adopting any policy, was taken in this direction. The meeting was very largely attended and the proceedings quite harmonious.

### What Cook Stove Shall I Buy?

We can answer this question by saying that the Duquesne Cook Stove, manufactured by Messrs. DeHaven & Son, No. 22 Wood street is one which has given complete satisfaction wherever used, and is so popular that over five thousand are now in use in this city alone. It is very economical in the use of fuel, is cleanly, bakes and roasts well and is made of the very best metal. Before you purchase inquire concerning the advantages of the Duquesne.

### The "Tourist."

The Tourist is a new and nobby style of soft hat that is very popular now, and justly so, too, for it is an exceedingly neat design, and something entirely new. It looks well upon any person, and will adorn any headpiece. The Tourist in the East is worn by all young gentlemen, and is considered among the dressiest and nobbiest styles that have been introduced for years. The hat is in several colors of cloth, all of which can be had at Messrs. Graham & McGregor's, No. 46 Federal street, Allegheny, one square below the depots.

### NEW LIFE FOR THE LANGUID.

Perfect health is vouchsafed to few. Probably ninety people out of every hundred who call themselves healthy have their "turns," of langour, exhaustion, depression of spirits and bodily pain. At these times a wineglassful of Hostetter's Stomach Bitters is as refreshing as "the shadow of a rock in a weary land." It invigorates and rests the system and cheers the mind. The effect of the Bitters in cases of nervous debility, produced either by undue physical exertion, over-study, intense anxiety, or any other cause, is wonderfully reviving and invigorating. In fact, this faithful vegetable restorative possesses medicinal properties which entitle it to the rank of an article of prime necessity, and it should be kept on hand in every dwelling, and promptly taken as a remedy for all the minor ailments as well as for the more serious complaints.

**"Out, Damned Spot!"**—The energetic exclamation of Macbeth is mentally ejaculated by every housewife when confronted by the manifold variety of stains and spots that disfigure articles of household ornament and use. But the "spots" are not so easy to remove by ordinary means. A little Sapolio brought into timely use causes them all to disappear as if by magic, and brings peace and satisfaction to the housewife mind. As cheap as common soap and a hundred times more effective. d&S
